Welcome to ALUGATE[®]

The home of high-quality bespoke aluminium gates, fencing and doors

All our gates, fencing and doors are custom made to the highest specifications by our experts at Grupo Marver.

From our 3-step sanding process, innovative iweld and Double ZERO systems, to our Qualicoat powder coating - our gates are the professionals choice.

At Alugate, we have a wide selection of designs to choose from in our collection, alongside a bespoke design service.

From pedestrian gates, double or single swing gates, to track or cantilever sliding gates, bi-folding or telescopic gates - we've got a gate to suit everyone! Our expert team will talk you through your options so you can decide what is best for you.

Our fully welded aluminium gates are a superior choice offering a lightweight, strong, durable and low maintenance option...and above all beautiful gates.

Create kerb appeal, add that all important security and value to your property with a fully welded aluminium gate, fence or door from Alugate.

What are you waiting for... get in touch today!

We use the best powder coating techniques so that your gate, fence or door looks fantastic.

Qualicoat (the quality label for powder coating) comes as standard at Alugate. You can also choose Qualicoat Seaside if you live in a coastal area to help protect from the elements.

We recommend a micro-texture finish but you can also choose matt, super matt or gloss.

We've also got a great selection of wood grain finishes, sparkle and 3D finishes too.
