Tailored manufacture

Maison **Cadiou** 

Welcome to Cadiou

50 years of family know-how

We find purpose in manufacturing functional & harmonious outdoor living areas.

In the heart of Locronan, combining both tradition and innovation, 700 men and women have committed to creating sustainable and attractive solutions as part of an authentic craftsmanship approach - a heritage passed down through generations.

Each and every details bears testimony to our company's quality, innovation and style. Discover how our products find their place in a world where functionality and aesthetics unite.

**SOCIAL AND
ENVIRONMENTAL
COMMITMENT**

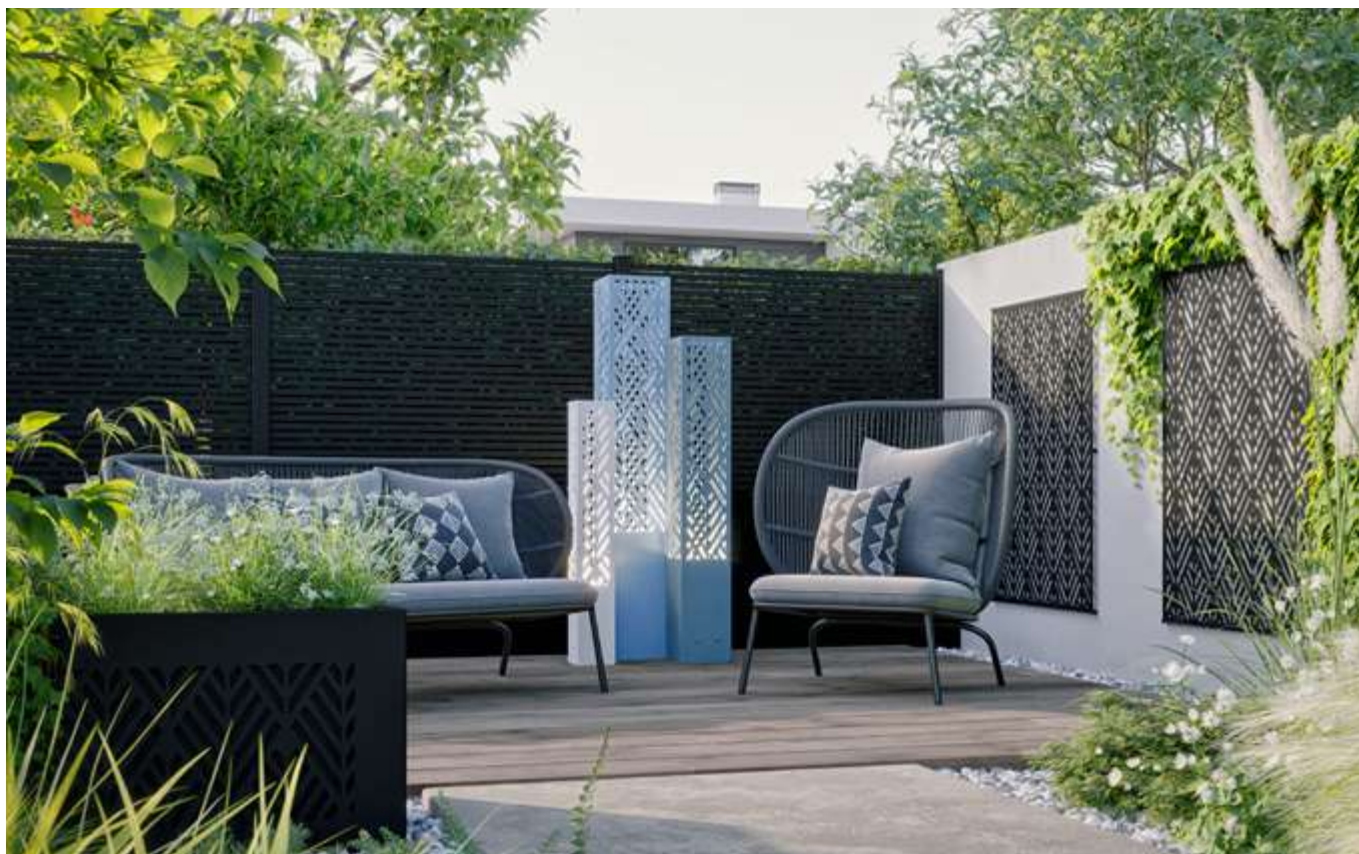

Your Outdoors, Our Signature

We are proud to introduce our meaningful signature adage - embodying our commitment to your well-being:

Protection - Accessibility - Demarcation - Safety - Adornment

- | Our pergolas and carports offer protection against changeable weather.
- | Thanks to our main and side gates, experience effortless access to your property.
- | Our fences will mark off your property and ensure safety.
- | Our railings will prevent any falls off high balconies or sunny terraces.
- | From your house's façade to its outdoor lighting, turn your exterior into a work of art thanks to our unique cladding.

Why choose Kostum?

30-year warranty for manufacturing and lacquering*

PRODUCTS THAT ARE RESPECTFUL OF THE ENVIRONMENT

We build the future by addressing each and every project responsibly. From initial design to our products' end-of-life, we strive to anticipate our environmental impact and endeavour to give each purchase meaning.

Assembled by hand in our Locronan workshops, our products are made using aluminium - a robust and infinitely-recyclable material.

Our constantly-committed approach has led us to adopt a waste reduction and recovery policy, applicable at each production stage.

HIGH-END AND RESPECTFUL INSTALLATION

Our network consists of over 600 qualified installers throughout France, Switzerland, Italy, Belgium, Luxembourg and England.

Working within a local distribution network, our fleet of 40 Kostum trucks ensures quick and efficient delivery to our installation partners. Once delivered to your home, the latter will install your products with utmost care to ensure the highest quality.

They are also available should you require any spare parts for repairing your product during its warranty period - starting from its date of manufacture.

REPAIRABLE AND LONG-LASTING PRODUCTS

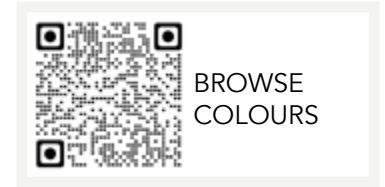

By simply presenting your order number, a Kostum installer can run a detailed diagnosis, draw up a quotation and schedule an appointment to repair your product.

Your Kostum installer will remain your main point of contact. Failing this, Kostum will of course take over. We keep a traceability record of all manufactured products, allowing us to guide towards a specialised point of contact if necessary.

Kostum products can be upgraded by installing a motor or decorative effect several years later!

*Excluding the Céklo range: 15 years for manufacture

Durable aluminium combined with the warmth of wood

TAILOR-MADE FOR YOU!

OVER 300 COLOURS TO CHOOSE FROM

Every detail counts when it comes to creating a harmonious atmosphere. With this in mind, you are able to customise your gate, fence, pergola or carport using one of our 300 colours, for a tailor-made project that will suit your taste and home aesthetics perfectly.

This extensive array of colours will ensure true harmony with your outdoor joinery and fittings, and give your garden a more personal touch.

LACQUERING CLASS 2

The quality-certified "superdurable" powder (Class 2) is a highly-durable lacquering powder. The binders and pigments used in these products offer excellent resistance to UV rays and bad weather conditions.

Lacquers help reduce this loss of shine by 30 % compared to the product's original state, and minimise colour changes over the years. The binders and pigments used in Class 2 products are at least three times more stable in the face of UV rays and bad weather than Class 1 quality.

QUALICOAT & QUALIMARINE CERTIFICATIONS

The Qualimarine certification ensure the highest possible resistance to corrosion available on the market - regardless of your surrounding atmosphere. The Qualilaquage label offers superior quality for stove-enamelled products used in the field of architecture.

Both these labels are certified by the ADAL (Association for the Development of Anodised or Lacquered Aluminium).

Archy collection

Powerful and
understated

Inspired by architectural creations and new urban areas, our Archy collection embodies pure and graphic lines - encompassing a range of tailored products. This range's strengths lie in its ability to offer simple yet sophisticated gate designs without any superfluous details. The Archy range showcases various materials, giving you a choice between modern aluminium gates and natural wooden finishes. A unique entrance bursting with character!

Cosy collection

Timeless and
welcoming

The Cosy collection embodies an understated and modern style of gates. This range's tailored products draw their inspiration from the wood industry, using a mortise and tenon joint system. Real wood is replaced by aluminium, offering more long-lasting and timeless models. This range counts a wide array of styles. Its various slat types offer an extensive selection, letting you choose the level of privacy best-suited for your property. This generous collection offers an amazing freedom of choice.

Timeless lines,
perfect for all houses

Fresk concept

Choose your
decorative effect

Because your garden is not merely an outdoors, it also a part of yourself - and this is why we decided to create Fresk. This innovative customisation concept enables you to include a decorative effect on your gate, fence, pergola or carport - or even on your outdoor cladding. Fresk also involves collaborations with designers and craftspeople from all kinds of industries - such as the painter Alain Coadou, the embroiderer and stylist Pascal Jaouen, or the lighting manufacturer Roger Pradier. Let your inspiration run free with the Fresk concept!

Over 60 decorative effects created by designers and artists

Create your perfect gate using the Fresk concept

Garden accessories

Harmonious decor

Nowadays, gardens are considered to be part of the house like any other living area, and should therefore be furnished and decorated. Kostum's accessories will bring an enchanting touch to your outdoors. Façade, planter and spotlight cladding show very high potential, and air-conditioning, heat pump and rubbish bin cladding will gloss over any of your garden's imperfections. To ensure perfect harmony, you can match these items to the colour chosen for your gate or fence. This decorative touch will bring a lovely balance and create a pleasant outdoor area to enjoy.
